I am a truck driver and I listen to XM radio. I did not think when they first came out with the Traffic and Weather on XM that I would use it, let alone need it. That is the case. After about a month I come to rely on them letting me know what roads are good and what roads are blocked by traffic or other things. I drive Los Angeles, CA about 4-8 times a month, and let me tell ya with all the roads, XM's Road and weather report is worth the 10 bucks I pay.
